

Claim 48

*A14
curly*
48. (Amended) The shaving assembly as claimed in claim 46, wherein the razor cartridge receiving area includes one or more apertures at the upper end of said cap.

In the Abstract of the Disclosure:

The Abstract of the Disclosure is replaced with the following:

*5/5 B/27
A17*
A shaving assembly includes a grippable body having an upper end, a lower end, and one or more side walls extending therebetween. The body includes a storage reservoir for holding a fluid shaving preparation. The storage reservoir is enclosed by the upper and lower ends and the one or more side walls of the body. The upper end of the body has a razor cartridge receiving area for having one or more razor cartridges attached thereto. The upper end of the body also has a plurality of openings adjacent the razor cartridge receiving area and in communication with the storage reservoir. A pedestal is disposed within the storage reservoir. The pedestal is selectively movable between the lower and upper ends of the body for urging the fluid shaving preparation through the plurality of openings at the upper end of the body to dispense the shaving preparation around the razor cartridges.

REMARKS
